OUR SERVICE

Made-to -measure

DESIGN

At Omni, we understand the evolving needs of your home. In a free, no-obligation survey, we discuss your preferences and guide you through the design process, focusing on each room's unique requirements.

Our bespoke design service offers endless options by manufacturing cabinets ourselves, including hand-painted doors, about 144 cabinet colours, integrated appliances, and more. Once we have created a bespoke concept design for you, we can provide an estimate of cost in advance of placing a deposit to secure your dream space.

At the next consultation, we review design changes and then provide a quote after tweaking has been done and the final design is agreed. Once the order is placed, delivery plans take a minimum of 6-8 weeks.

OUR SERVICE

BUILD

Designs and dreams turned into a reality. As a family-run company who have renovated many houses whilst living in them, we are aware of how difficult the construction stage can be.

Omni Home Design works with a team of local tradesmen and we do everything possible to keep disruption to a minimum.

NEED MORE SPACE?

Is your family growing? Do you need a home office? Would you love a conservatory, utility room, extra bedroom or oak-framed garage?

All of these can become a reality. We have experience of working with local architects and building firms.

OUR PROJECTS

GRADE II LISTED COTTAGE KITCHEN

This bespoke kitchen in a charming Grade II listed cottage beautifully marries historic character with modern functionality. Thoughtfully designed to honour the property's heritage, it also meets the needs of contemporary living.

Cottage Kitchen

6

KEY FEATURES

- Solid Iroko Worktops: Warm and timeless, adding rustic appeal.
- Heritage Green Cabinetry: Traditional country vibes with earthy tones.
- Antique Brass Hardware: Vintage charm that nods to the past.
- Bespoke-made Shaker Doors: Classic design that respects the cottage's history.
- Butler Sink: A charming focal point with practical use.
- Bespoke Storage: Custom cabinetry maximises space and style.
- Slate Flooring: Durable, authentic, and rich in texture.

Despite the challenges of working within Grade II restrictions, this kitchen blends historical respect with modern comforts, creating a space that tells a unique story.

OUR PROJECTS

MODERN IDEALS

Our client envisioned a sleek and modern kitchen with a "stealth" island as the focal point, complemented by a true handleless design. To achieve this, we crafted bespoke anthracite slab doors paired with integrated anthracite handles for a seamless look. The worktops and island feature book-matched Calacatta

composite, ensuring an exquisite flow of texture and colour throughout the space. The result is a striking yet functional kitchen that perfectly marries contemporary elegance with exceptional craftsmanship.

Modern Ideals

8

KEY FEATURES

This kitchen boasts an array of innovative features designed to enhance both style and functionality. Dropdown sockets with integrated speakers provide modern convenience, while the double pull-out storage system is perfectly coordinated to match the door and handle colors. A bespoke L-shaped handleless larder adds unique design flair, and an integrated undermounted sink seamlessly blends into the island unit. Plinth LED lighting, fully

integrated appliances, and discreet integrated bins further contribute to the sleek, seamless aesthetic.

Additionally, a full utility room designed to match the kitchen ensures a cohesive and practical extension of the space.

The design brief challenged us to create a kitchen that was modern, edgy, and timeless, with a focus on sleek lines and a minimalist finish. By pushing the boundaries of style and functionality, we delivered a space that transcends traditional modern design—combining innovation and practicality.

OUR PROJECTS

FAMILY GOALS

For this project, our client sought a traditional kitchen design that was both practical and stylish, tailored to suit the needs of the entire family while incorporating unique design elements. To achieve this, we reimagined the space by opening up the existing entrance, allowing natural light to flood into the hallway and front section of

the house. This transformation not only enhanced the brightness of the home but also significantly improved the overall flow of living, creating a welcoming and functional space for everyday use.

Family Goals

10

KEY FEATURES

This beautifully designed kitchen features elegant Shaker-style doors in a soft dove grey, paired with a pristine white composite work surface for a timeless aesthetic. The centre-piece island offers seating for three, a built-in wine rack, a boiling water tap, a dishwasher, and a sink, blending practicality with style. A symmetrically designed range cooker, framed by two-door packs on either side, serves as a striking focal point. The fully

integrated tall fridge-freezer and wall-mounted microwave further enhance the kitchen's seamless design. Completing the space is a fully integrated utility room, thoughtfully designed to include a washing machine, tumble dryer, ample storage, and more.

The result is a stunning and functional family hub that effortlessly combines style and practicality.

Family Goals

11

OUR PROJECTS

CLASSIC CALM

Collaborating closely with the client's architect, we reimagined the initial concept to seamlessly integrate all of the client's requirements. This approach allowed us to maximize kitchen storage while optimizing space throughout the rest of the renovation, ensuring both functionality and harmony in the overall design.

Classic Calm

12

KEY FEATURES

This kitchen showcases a timeless design with white painted Shaker cabinets, paired with beige composite work surfaces that are non-porous and heat-durable for both style and practicality.

Thoughtfully integrated features include tray spaces, towel storage, a double Butler sink, and a classic range cooker. The island, designed for socialising, offers seating on two sides, making it the heart of the kitchen. Bespoke tall units,

custom-made to fit the room's alcove, maximize storage with a fully integrated, floor-to-ceiling design. Completing the look are sleek stainless steel T-bar handles, adding a contemporary touch to this elegant space.

The finished kitchen is a practical and inviting social space, designed in calming hues and thoughtfully tailored to meet all the client's design requirements. Additionally, the project achieved significant cost savings by avoiding structural changes during the renovation.

Classic Calm

13

OUR PROJECTS

COLOUR POP

This project included building works to merge two areas, creating the perfect kitchen, utility, and dining space for a growing family. It involved the remodelling and refurbishment of the rear of the house. From concept and design to building works and installation, we provided full project management through to completion.

Colour Pop

14

KEY FEATURES

This kitchen features a convenient boiler tap and a worktop bin for added practicality. The American fridge freezer is housed within bespoke cabinetry, complemented by a custom wine rack positioned above. The work surfaces are crafted from white Carrara composite, offering a luxurious and durable finish. The cabinetry is made-to-measure, with a striking two-tone design in platinum white and dark blue, while the statement

island includes a perching seat for socialising. The utility room is cleverly designed to include storage alongside a washing machine, tumble dryer, and sink. A ceramic farmhouse sink with one-and-a-half bowls adds a classic touch, and engineered oak flooring throughout brings warmth and sophistication to the space.

The completed remodel resulted in an aesthetically pleasing and ergonomically functional kitchen, living, and dining area, alongside a highly practical utility space.

OUR PROJECTS

BATHROOM MAGIC

We were thrilled to transform this client's dated and awkward bathroom in their listed property. With tight spaces, unusual angles, and uneven walls, it was the perfect opportunity for a bespoke approach!

Bathroom Magic

16

KEY FEATURES

Every inch of this new bathroom was designed to maximise storage, while ensuring a bright and contemporary aesthetic that complemented the building's historic character. The muted, hand-painted cabinetry was custom-designed to fit the room

perfectly. White walls and bright accent lighting helped create a beautiful space that is both stylish and practical. The design also features a full bath with a new shower over, completing the fully equipped bathroom.

OUR PROJECTS

MASTER SUITE

The reconfiguration and remodelling of this master bedroom, dressing room, office area, and master ensuite bathroom involved rearranging the structure and layout to optimise space. This transformation improved the flow between all areas, creating a more functional and harmonious master suite.

Master Suite

18

KEY FEATURES

This master suite was fully reconfigured to create a harmonious space that includes a study area, dressing room, ample storage, and a separate bathroom.

The bathroom features a fully tiled, purpose-made area with a recessed mirrored wall cabinet, an integrated vanity unit, and bespoke tiled bath panelling. Bespoke alcove glass shelves add a custom touch, while a pocket door system enhances accessibility and reduces

disruption. The made-to-measure, floor-to-ceiling wardrobes and shelving unit are carefully coordinated to maximise storage.

The bedroom area is designed to be uncluttered and tranquil, with carpet throughout and tiles in the bathroom. New lighting fixtures complete the space, ensuring a well-lit and functional environment.
